

Specification Sheet

Reduce the risk of non-compliant instruments with our qualification services for biosafety cabinets.

Qualification services verify and document that instruments and equipment are installed, operating, and performing according to manufacturer's specifications and user requirements. Selecting the right compliance service provider and partner to deliver your qualifications is essential for the success and efficiency of your regulated laboratory.

As an original equipment manufacturer (OEM) service provider for Thermo Fisher Scientific, Unity™ Lab Services offers qualification services that ensure your laboratory equipment meets global standards and mitigates the risk of regulatory non-compliance.

With our services, you'll receive a full range of qualification capabilities that provide improved productivity, single-vendor convenience, a no-charge requalification guarantee*, and comprehensive documentation reports. You'll have peace of mind knowing we're supporting your quality management systems, traceability, and audit readiness.

Qualification/Service	Description
Installation Qualification (IQ)*	<ul style="list-style-type: none"> Verifies that the equipment, manuals, supplies and any other accessories arrived undamaged as specified in the sales order. Verifies equipment and any other accessories are assembled and installed. Any abnormal event(s) observed during the IQ is documented in the IQ protocol. Verifies that the installation site and equipment environment meet manufacturer-specified environmental requirements.
Operation Qualification (OQ)	<ul style="list-style-type: none"> System component information: detailed configuration information for each system component has been recorded (as applicable). Verifies important equipment functions and ensures that the equipment operates as expected by the manufacturer and in conformance to standards and requirements. <p>The Operation Qualification verifies the performance of the biosafety cabinet, which ensures safety for the user, for the samples, and for the environment.</p> <p>Key tests offered based on relevant certification standard:** Filter Leakage, DEHS, Air Velocity, Electrical Safety, Air-Flow Smoke Pattern, KI-DISCUS.</p> <p>NSF 49 (United States) EN 12469 (Europe) DIN 12480 (Europe)</p>

*Installation of equipment is not included within our IQ services. Additional fees apply for inside delivery shipping method or for full installation and setup of equipment.

**Key tests offering may vary by region.

Visit unitylabservices.com/complianceservices for more information about our compliance offerings.

What's included

All documentation will be provided to you in a qualification binder upon acceptance of the IQOQ results.

Example documentation is as follows:

- IQ Report
- OQ procedure/worksheets
- Charts
- Equipment certificates
- Reference meter(s) calibration certificate
- Field service engineer training certificate: product and qualification

Documentation is available in English, German, and French.

Our requalification guarantee

Stay compliant with our industry-exclusive, no-charge requalification guarantee*

With Unity Lab Services qualification services, you'll be confident that your instruments maintain compliance should an unexpected audit arise. Unlike other OEM service providers who charge for requalification services, **we are the only provider to offer a guarantee and promise to requalify instruments and equipment at no charge if a key component fails while under the original factory warranty or a qualifying instrument service plan.**

Pass audits the first time with our robust and easy-to-understand OEM qualification protocols and harmonized documentation

Our factory-developed qualification protocols are written to support accepted industry standards and regulatory requirements. Our qualification services provide consistent, audit-ready documentation that meets pre-determined and/or user specifications. In addition, our harmonization of qualification protocols and documentation across all instruments saves you administrative work, review time, and complicated approval processes, helping to ensure the best audit outcome.

Stay on schedule with our full-range, single-source support from experienced engineers

Unity Lab Services provides a full-service solution for installing, repairing, qualifying, and mitigating risks so your instruments (including other manufacturers' units) get up and running faster and your research stays on schedule. Our factory-certified validation engineers are product experts with experience in regulated environments, ensuring your qualifications are delivered efficiently and effectively to industry standards.

Industry-Exclusive, No-Charge Requalification Guarantee*

Unity Lab Services is the only OEM service provider to offer a guarantee and promise to requalify instruments and equipment at no charge if a key component fails while under the original factory warranty or a qualifying instrument service plan.

*Our no-charge requalification guarantee applies only to instruments under the original factory warranty or a qualifying Unity Lab Services instrument service plan and covers requalification on the corrective maintenance repair at no additional charge. Terms and conditions apply.

**Compliance services are only available in select countries including U.S., Germany, France, U.K., Ireland, Spain, Portugal, Italy, Austria, Switzerland, Norway, Sweden, Denmark, Netherlands. For other locations please contact your local country organization.
